Garnsh — Assumptions and Evidence Register

Version 3.0 · 11 November 2026

This register separates what is verified from what is modeled and what still needs evidence. A claim is not investor-grade because it appears in a deck; it is investor-grade when the evidence behind it is named.

Classification key

- **VERIFIED** — supported by a primary source or direct observation.
- **MODELED** — a planning assumption or forecast. It may be reasonable, but it is not evidence.
- **UNVERIFIED** — requires external confirmation, customer validation, legal review or a third-party quote.

#	Claim	Class	Evidence / basis	Owner	Next action / deadline
1	Toast had ~189,000 locations at Q3 2026, up 21% year over year	VERIFIED	Toast Q3 2026 results, 3 Nov 2026	Founders	Re-check at each Toast earnings release
2	Toast annualized recurring revenue was ~$2.5B at Q3 2026	VERIFIED	Toast Q3 2026 results	Founders	Re-check quarterly
3	Toast added ~8,500 net new locations in Q3 2026	VERIFIED	Toast Q3 2026 results	Founders	Re-check quarterly
4	10–20% of Toast locations sit in groups of 10+	MODELED	No public breakdown by group size; assumption	Founders	Validate with Toast partner rep or industry data
5	The Gen 1 SAM is $13.8M–$27.7M ARR	MODELED	18,900–37,800 locations × $61 × 12	Founders	Recalculate after pricing interviews
6	Garnsh has 0 signed design partners, 0 live locations and 0 paying customers	VERIFIED	Internal status, 11 Nov 2026	Founders	Update monthly
7	The current build is a demo, not a production service	VERIFIED	Internal review	Founders	Production readiness review before first paid go-live
8	Toast Menus API production credentials are partner-gated	VERIFIED	Toast developer documentation, 2026	Founders	Keep current
9	Toast standard API access is read-only, per-location, Menus V2, reporting-oriented	VERIFIED	Toast developer documentation, 2026	Founders	Keep current
10	Customer-supplied credentials may lawfully power a public-facing website	UNVERIFIED	No written Toast position; terms are ambiguous	Counsel + Toast rep	Written opinion before first public use; 15 Jan 2027
11	Toast partner fees and ordering revenue share	UNVERIFIED	Fees unpublished; ~30% ordering share is 2019 reporting, not current	Toast rep	Written terms before Gen 2 pricing; 31 Mar 2027
12	Toast certification timeline for Gen 2	UNVERIFIED	Process is gated; no dated commitment	Toast rep	Written timeline by day 120
13	Toast Websites is view-only; Online Ordering and Local menus cannot differ	VERIFIED	Toast support documentation, 2026	Founders	Keep current
14	Toast's US restaurant base is ~20% of US eating and drinking establishments	VERIFIED	Toast Q3 2026 commentary; industry counts 700,000+	Founders	Keep current

#	Claim	Class	Evidence / basis	Owner	Next action / deadline
15	Core price of $59 per location per month is achievable	UNVERIFIED	Founder hypothesis; no invoices	Founders	10 pricing interviews; 31 Jan 2027
16	Menu boards attach at 5% (2027), 55% (2028), 65% (2029)	MODELED	Founder assumption; no customer data	Founders	Measure first 10 groups
17	Gen 2 ordering attaches at 17% (2028), 28% (2029)	MODELED	Founder assumption; depends on Toast approval	Founders	Reassess after certification
18	Blended ARPU is $61 (2027), $98 (2028), $118 (2029)	MODELED	Price stack × attach assumptions	Founders	Rebuild after pricing interviews
19	Setup fee is $1,500 per brand	MODELED	Founder hypothesis	Founders	Test in first 10 sales conversations
20	Onboarding takes 2 hours per location at $60/hour	MODELED	Founder estimate	Founders	Time first 20 locations
21	Setup fee loses $180 per 14-location group at 2h/location	VERIFIED (arithmetic)	$1,680 cost − $1,500 fee	Founders	Raise fee to $2,500 or cap hours
22	Group logo churn is 1.5%/month; location churn 0.5%/month	MODELED	Comparable SaaS assumption; no Garnsh data	Founders	Measure from first cohort; Q4 2027
23	Downside churn is 2.5% group / 1.0% location	MODELED	Stress assumption	Founders	Re-run after 6 months of data
24	CAC is $1,590 per group (18 selling hours × $55 + $600)	MODELED	Founder time and travel estimate	Founders	Track actual hours and travel per close
25	Close rate is 1-in-4 on qualified conversations	MODELED	Founder assumption; no pipeline yet	Founders	Measure first 40 conversations
26	2027 plan: 15 gross groups, 14 net, 193 live, 142 paying	MODELED	Cohort model	Founders	Update monthly
27	2028 plan: 46 net groups; 2029: 90 net groups	MODELED	Cohort model with churn and gross adds	Founders	Reforecast after 2027
28	2027 revenue is $42,195; 2028 $440,883; 2029 $1,287,970	MODELED	Cohort model, `model_v3.py`	Founders	Re-run quarterly
29	2027 economic result is −$20,558 after $25,200 imputed founder onboarding	MODELED	Cohort model	Founders	Decide whether founders absorb or capitalize onboarding
30	Paid 2027 onboarding exhausts the $20,000		Cash trough −$6,386 in Oct 2027	Founders	Do not pay for 2027 onboarding

#	Claim	Class	Evidence / basis	Owner	Next action / deadline
		VERIFIED (model arithmetic)			without new capital
31	The base case returns capital in December 2027	MODELED	Cash model; trough $5,923, YE $23,892	Founders	Track monthly
32	Downside 2029 is insolvent at the planned cost base	MODELED	Revenue $694K, COGS $173K, opex $615K	Founders	Pre-commit the lean 2029 cost response
33	Setup fee at 10 locations is +$300; at 12 locations + $60	VERIFIED (arithmetic)	2h/location at $60	Founders	Use group-size pricing where needed
34	A 14-location group pays $826/month core, $1,386 with boards	VERIFIED (arithmetic)	14 × $59; 14 × $99	Founders	Include in sales sheet
35	Toast plan may add ~$50/location/month if the group is not on Essentials	UNVERIFIED	No Toast quote	Toast rep	Get three written quotes; 31 Jan 2027
36	Competitor prices: ChowNow $229–$449; Popmenu $159–$499; Owner.com $249 + 5%; Lunchbox $300–$499	PARTLY VERIFIED	Published roundups, Oct 2026; some are reported, not published	Founders	Verify each vendor's current public price
37	Marqii and BentoBox pricing	UNVERIFIED	Not published	Founders	Request quotes; 31 Jan 2027
38	A 30-day paid pilot converts to annual at list	UNVERIFIED	Proposed sales motion; no pilot run	Founders	Run first 4 pilots; Jun 2027
39	The 12-month design-partner program produces case studies and references	UNVERIFIED	Proposed; no commitments	Founders	Sign 10 partners; Jun 2027
40	The team can build Gen 1 in 8–12 weeks	MODELED	Founder estimate; current demo	Founders	Re-estimate after technical review; 15 Jan 2027
41	Founder capacity is 1,410 hours in 2027, peak 17.6h/week each	MODELED	Activity budget in §8.2	Founders	Track weekly; flag >20h/week
42	Support contractor costs $2,500/month from 150 locations	MODELED	Market rate assumption	Founders	Get two quotes; Q3 2027
43	2028 marketing, travel and design can be MRR-gated	MODELED	Management policy	Founders	Enforce in monthly close
44		UNVERIFIED	Assumed; determines PCI scope	Toast rep + counsel	

#	Claim	Class	Evidence / basis	Owner	Next action / deadline
	Gen 2 card handling stays with Toast under the Orders API				Written confirmation before Gen 2 build
45	The company can reach $1.29M revenue by 2029 without outside capital	MODELED	Cohort model; requires founder onboarding, churn and price assumptions to hold	Founders	Reforecast after 2027

What cannot be resolved without founder input

1. **Who performs 2027 onboarding.** If the founders do it, cash works and the economics do not. If a contractor does it, the company needs roughly $25,000 more capital.
2. **The final price.** $59 is a hypothesis. Ten interviews decide whether the $39/$69/$45 ladder is needed.
3. **Toast legal position.** Whether customer credentials may power a public website is a binary legal question.
4. **Founder role split and equity.** The plan assumes two equal partners; the operating agreement must say who owns which function.
5. **Design-partner commitments.** Zero are signed. The 2027 plan depends on 10.

Anything not listed as VERIFIED above should be treated as a planning assumption, not a fact.
